

CONSUMER DIRECT CARE NETWORK WISCONSIN

INCLUDE. RESPECT. | SELF-DIRECT IRIS

Consumer Direct Care Network has led the industry in expanding choice and control since 1990. Our clients and caregivers have taught us that every service and support we offer directly affects a life. This inspires us to continue and to innovate and go beyond what's expected.

Our History in Wisconsin

Consumer Direct Care Network Wisconsin (CDWI) has supported individuals in Wisconsin since 2008. Our company supports over 20,230 individuals nationwide who self-direct their services. Our combined local knowledge and national experience will be an asset in supporting you in your responsibility as the employer and managing your

IRIS budget and services. CDWI is a resource to individuals and participant hired workers (PDWs) navigating through the required paperwork and processes with the Fiscal Employer Agent (FEA) providers. We are experienced in person-centered planning and service plan development.

The Regions We Serve

We currently offer Consultant Services in these six counties. Geographic Service Region (GSR) 1:

Chippewa

Dunn

Eau Claire

Pierce

St. Croix

Taylor

**To learn more about the IRIS program and CDWI, contact your
Aging and Disability Resource Center to schedule Options Counseling.**
